Programs

Ronald McDonald House®

Ronald McDonald Houses are built on the simple idea that nothing else should matter when a family is focused on healing their child. Families with a child being treated at a local hospital may be eligible to stay at one of our Ronald McDonald Houses. Each guest family has a private bedroom and bathroom, and access to a full kitchen, laundry room, living room, playroom, and outside play areas. A $15 donation per night is suggested, but families are never turned away for the inability to pay.

Ronald McDonald Family Room®

Ronald McDonald Family Rooms offer families a comfortable and welcoming place to rest and regroup right in the hospital, just steps away from a pediatric unit and their sick child. While services vary within our three RMFR, families will often find a kitchen area with a refrigerator and/or microwave, laundry facilities, seating area with reading materials, internet access, coffee and friendly, welcoming faces from RMHCDC volunteers.

Ronald McDonald Care Mobile®

Ronald McDonald Care Mobiles, operated in association with MedStar Georgetown University Hospital, bring primary health care directly to children in their communities through two 40-foot long, 8-foot wide, state-of-the-art vehicles. One unit includes two patient examination rooms, a laboratory, and reception and medical records areas. The FITNESS Program, which teaches the importance of healthy eating and regular physical activity, is housed in a mobile unit that can be reconfigured for large or small group activities as well as individual consultations.
The first Ronald McDonald House opened in Philadelphia with the help of Dr. Audrey Evans, a pediatric oncologist at Children’s Hospital of Philadelphia.

The original Ronald McDonald House® of Washington, DC opened its doors in June of 1980, and was the sixteenth RMH to open nationwide in the six years since the program began.

RMH merged with Ronald McDonald House Charities to become Ronald McDonald House Charities® of Greater Washington, DC (RMHCDC).
